Boxwood and Evergreens

# LAST CALL

Do not pass up this one-half price offer of surplus stock in good items. Divide the price below, which is the usual standard price, by two; you save 50c on the \$1.00. Time limit May 15th. Cash must accompany order or stock shipped C. O. D. Write or wire at my expense today. Retail demand is good. Grow your own and put the profit in your pocket.

## EVERGREENS

### Buxus, The Boxwood

#### BUXUS SEMPERVIRENS ARBORESCENS (Truetree Boxwood)

	100	1000
3 yr. trans. nursery rows 10-15 in.	\$20.00	175.00
3 yr. trans. nursery rows 8-10 in.	18.00	150.00
3 yr. trans. nursery rows 6-8 in.	15.00	125.00
2 yr. trans. nursery rows 6-8 in.	12.00	110.00
2 yr. trans. nursery rows 4-6 in.	8.00	75.00
2 yr. beds 6-8 in.	8.00	75.00
2 yr. beds 4-6 in.	6.00	50.00

#### BUXUS SEMPERVIRENS SUFRUTICOSA (Truedwarf Boxwood)

2 yr. beds 4-6 in.	7.00	60.00
2 yr. beds 2-4 in.	5.00	40.00

My boxwood is propagated from cuttings made up from select specimen plants growing on the grounds of old Southern estates in North Carolina and Virginia. These plants range from 50 to 100 years old and are in perfect condition. My stock of boxwood is one of the largest in America and will please you.

### Cedrus, The Cedars

#### CEDRUS ATLANTICA (Atlas Cedar)

A large majestic pyramidal tree with silvery green foliage.

2 yr. 6-8 in.	20.00	175.00
2 yr. 4-6 in.	12.00	110.00
1 yr. 4-6 in.	10.00	90.00
1 yr. 2-4 in.	8.00	75.00

#### CEDRUS LIBANI (Cedar of Lebanon)

When small the tree is of conical regularly shaped outline with wide spreading branches, but as the tree increases in age it assumes a round open head, a change from the beautiful to the picturesque. Aside from its ornamental value it is of peculiar interest for its scriptural and historical associations. It is said to be the most hardy of the Cedrus family.

2 yr. 6-8 in.	15.00	125.00
2 yr. 4-6 in.	9.00	80.00
1 yr. 4-6 in.	8.00	75.00
1 yr. 2-4 in.	6.00	50.00

## CEDRUS DEODARA (Deodar)

Feathery artistic blue foliage considered most beautiful ornamental cedar for the Atlantic, Southern and Pacific Coast States. Deodar is a Hindu word, meaning Tree of the Gods. Almost unrivalled in the grandeur of its pendulous and lithe branches.

	100	1000
2 yr. trans. 8-10 in.	30.00	250.00
2 yr. trans. 6-8 in.	20.00	175.00
2 yr. trans 4-6 in.	15.00	135.00

### Chamaecyparis, The Cypress and Retinosporas

#### CHAMAECYPARIS LAWSONIANA (Lawson Cypress)

A graceful plant of medium height, erect growth, broad at base, tapering to point at tips, branches reflex with glaucous tips, under the surface of leaves silvery, upper surface dark green. Prefers dry, well drained situations. Ultimate height 10 to 15 feet.

2 yr. trans. 8-10 in.	25.00	200.00
2 yr. trans. 6-8 in.	20.00	175.00
2 yr. beds 8-10 in.	12.00	100.00
2 yr. 6-8 in.	8.00	75.00
2 yr. 4-6 in.	5.00	40.00
1 yr. 4-6 in.	4.00	35.00
1 yr. 2-4 in.	3.50	30.00

#### CHAMAECYPARIS OBTUSA (Hinoki Cypress)

A slender rapid growing plant, rather open in habit, with cupped foliage of a dark green color; usually of medium height, sometimes attaining a height of 18 feet. Prefers a rather fertile soil.

2 yr. 6-8 in.	7.00	60.00
2 yr. 4-6 in.	5.00	40.00
1 yr. 2 in.	3.00	25.00

#### CHAMAECYPARIS PISIFERA (Sawara Retinospora)

Foliage bright-green somewhat pendulous. This is a very valuable and hardy form, and is not commonly grown.

2 yr. 6-8 in.	7.00	60.00
2 yr. 4-6 in.	5.00	40.00

## CRYPTOMERIA

### CRYPTOMERIA JAPONICA (Common Cryptomeria)

A great favorite in Japan, attains a height of 100 or more feet. Of graceful and rapid growth. Regular, pyramidal habit, the foliage somewhat resembles that of the Norfolk Island Pine; hardy in New England in sheltered position.

	100	1000
2 yr. trans. 8-10 in.	15.00	135.00
2 yr. trans. 6-8 in.	12.00	100.00
2 yr. 8-10 in.	10.00	80.00
2 yr. 6-8 in.	7.00	60.00
2 yr. 4-6 in.	6.00	50.00
1 yr. 2-4 in.	4.00	30.00

## Euonymus

### EUONYMUS JAPONICA (Evergreen B.)

Leaves dark, shining green. A fine plant for the lawn. Succeeds in almost any situation.

2 yr. trans. 8-10 in. nursery rows.	12.00	110.00
2 yr. trans. 6-8 in. nursery rows.	10.00	90.00

## Larix, The Larch

### LARIX DAHURICA (Dahurian Larch)

Rare rapid-growing species from Eastern Siberia; up to 80 feet.

2 yr. 4-6 in.	5.00	40.00
1 yr.	3.50	30.00

### LARIX EUROPAEA (European Larch)

Large tree of fine pyramidal growth.

2 yr. 4-6 in.	5.00	40.00
1 yr.	4.50	35.00

### LARIX LEPTOLEPIS (Japanese Larch)

Tree to 80 feet high and very handsome as a lawn specimen.

2 yr. 6-8 in.	7.00	60.00
1 yr.	5.00	40.00

### LARIX OCCIDENTALIS (Western Larch)

Horizontal branches forming a narrow pyramidal head; leaves pale green.

1 yr.	6.00	50.00
-------	------	-------

<b>Ligustrum, The Privets</b>			<b>PINUS MONTANA (Swiss Mountain Pine)</b>			<b>Ulex, Gorse</b>		
<b>LIGUSTRUM JAPONICUM (Japanese Privet)</b>			Very variable in habit; usually low, often prostrate shrub, sometimes pyramidal tree to 40 feet tall. Usually handsome low shrub with bright green foliage.			<b>ULEX EUROPAEUS (Common Gorse)</b>		
A very handsome broad-leaved variety with large, dark-green leaves.			2 yr. 4-6 in. -----			Ornamental evergreen plant. Grown for their handsome yellow flowers. Has dark green spiny branches. Valuable for covering dry sandy banks, also well suited for sea-side planting.		
Flowers produced in panicles followed by purple berries which are retained during the winter, giving the plant a very pleasing appearance. This plant can be grown into a small tree, can also be trimmed into pyramidal, standard or other forms. Ultimate height, 20 to 30 feet.			100 1000			100 1000		
2 yr. cut-back 6-8 in. -----			6.00 50.00			1 yr. 4-6 in. -----		
1 yr. 6-8 in. -----			2 yr. 2-4 in. -----			4.50 35.00		
1 yr. 4-6 in. -----			3.50 25.00			100 1000		
<b>LIGUSTRUM JAPONICUM AUREA</b>			<b>PINUS MONTANA MUGHUS</b>			<b>SHRUBS AND TREES</b>		
A large shrub similar in habit to Ligustrum Japonicum, but with leaves deeply margined with golden yellow. Very attractive in plantings used in combination with green and silvery leaved forms. Ultimate height 8 to 10 feet.			Perhaps the most useful of the dwarf Pines for foundations planting. Very shrubby and low.			<b>ACER PALMATUM (Japanese Maple)</b>		
2 yr. 6-8 in. Seedlings -----			2 yr. 2-4 in. -----			This species and Acer Japonicum are known as Japanese maples. They are extremely handsome shrubs of dense though graceful habit, and with elegant foliage, beautiful especially in spring for its delicate shades of green and red, and again in autumn when the leaves assume the most striking tints. Largely used for grafting stock for the many Japanese varieties.		
4.00 35.00			1 yr. -----			1 yr. 3-4 in. -----		
<b>LIGUSTRUM LUCIDUM (Glossy Privet)</b>			<b>PINUS MUGHUS (Mugho Pine)</b>			7.00 60.00		
A beautiful form of Japanese Privet. Leaves large, thick, ovate, lanceolate of a very dark shining green. Large heads of white flowers produced in May, followed by black berries, which are retained throughout the winter. Hardy at Baltimore. A most desirable variety. Attains a height of 20 feet.			Most interesting evergreen forming a compact and symmetrical dome of bright green foliage; needles are sharp and a rich green color. Succeeds in any soil, and is invaluable for planting in a dry rocky location.			1 yr. 2-3 in. -----		
1 yr. 4-6 in. -----			3 yr. 2-4 in. -----			5.00 40.00		
5.00 40.00			2 yr. 2-4 in. -----			4.50 35.00		
<b>LIGUSTRUM NEPALENSE (Nepal Privet)</b>			<b>PINUS PINASTER (Cluster Pine)</b>			<b>CRATAEGUS PYRACANTHA COCCINEA</b>		
Medium size, dark green, glossy leaves; uniform, compact spreading growth. A very attractive plant, essential to landscape planting in masses, banking or groups. Fills space between tall, rank growing shrubs and the very low growing types.			Tree to 100 feet, with spreading or sometimes pendulous branches forming a pyramidal head; branchlets bright reddish brown; buds oblong-oval brown, not resinous; leaves stiff, neutre, usually twisted, glossy green.			A beautiful sub-variety of evergreen burning bush. Very effective and desirable. In early spring the plant is covered with a profusion of white flowers, which are followed by bright orange berries, these being retained during the entire winter.		
2 yr. 8-10 in. -----			2 yr. 10-12 in. -----			1 yr. 4-6 in. -----		
8.50 75.00			6.50 55.00			3.50 25.00		
1 yr. 6-8 in. -----			2 yr. 8-10 in. -----			<b>CRATAEGUS PYRACANTHA LALANDI</b>		
7.00 60.00			1 yr. -----			Sometimes called "Burning Bush."		
5.50 45.00			<b>PINUS PINEA (Italian Stone Pine)</b>			An evergreen shrub of spreading habit; foliage a rich dark glossy green; clusters of white flowers in the spring are followed by a wealth of orange-colored berries, which remain on the plant all winter.		
<b>LIGUSTRUM QUIHOU (Quiboui Privet)</b>			Compact and symmetrical when young, and picturesque when older, with a broad parasol-like head. Hardy only in California and the South.			1 yr. -----		
Fine leaf type. Blooms throughout the season. Excellent for florist's use. Small leaves medium shade of green very dense compact growth. Shapely very desirable variety for groups and foundation planting. Medium height.			2 yr. 4-6 in. -----			7.00 60.00		
2 yr. 10-12 in. -----			5.00 40.00			<b>DESMODIUM BICOLOR (Lespedeza)</b>		
4.00 30.00			<b>PINUS PONDEROSA (Western Yellow Pine)</b>			2 yr. 12-18 in. -----		
<b>Nandina</b>			Tree occasionally to 100 feet tall, probably 50 to 75 feet in cultivation. Important timber tree somewhat resembling Austrian Pine. Very fine ornamental.			4.50 49.00		
<b>NANDINA DOMESTICA (Nandina)</b>			2 yr. 4-6 in. -----			<b>DESMODIUM FORMOSA ALBA (Lespedeza)</b>		
The delicate foliage of the Nandina is a brilliant dash of gorgeous orange red or crimson color in winter. It is dense and stocky, being one of the dwarfish plants of Japanese gardens. The leaves are rich red when young, dark green at maturity, and boldly colored in winter. Nandina thrives well in any well drained, loamy soil, and is fairly hardy. In autumn it is covered with snowy clusters of small red berries. This plant is one of the three plants most used in the better class of landscape work.			1 yr. -----			2 yr. 6-12 in. -----		
2 yr. trans. 4-6 in. -----			<b>PINUS STROBUS (White Pine)</b>			4.50 40.00		
17.00 150.00			The White Pine is the largest of all conifers native to the eastern part of the United States. It readily adapts itself to both dry and moist soils, for it is found on the poorest and driest sand, and on steep, rocky slopes, and also on moist clay flats and river bottoms. It grows rapidly and has long, flexible needles, whitish beneath.			<b>PHOTINIA SERRULATA (Low Photinia)</b>		
2 yr. 4-6 in. -----			2 yr. 6-8 in. -----			A shrub with large shining foliage which frequently colors crimson and bronze in winter. White flowers produced in large trusses followed by red berries. In spring the young growths are a delicate shade of light green which in contact with the darker foliage, gives a very beautiful effect. Ultimate height 5 to 12 feet. Prefers well drained, fertile soil and some sun, although does fairly well in shade. A very valuable and scarce plant. Do not fail to add this fine plant to your collection.		
10.00 90.00			2 yr. 4-6 in. -----			2 yr. 6-8 in. -----		
<b>Picea, The Spruces</b>			<b>PINUS SYLVESTRIS (Scotch Pine)</b>			8.00 75.00		
<b>PICEA ALBA</b>			A splendid tree of broad pyramidal habit, rather open, with gracefully awaying branches and needles of medium length of a bright green color. Moist soils and situations; ultimate height 35 to 40 feet.			2 yr. 4-6 in. -----		
Described by Bailey, the eminent horticulturist, as "A native of the Northern part of America." Derives the name White Spruce due to its light frosty green foliage, slightly tinged with blue.			1 yr. -----			7.00 60.00		
1 yr. -----			<b>PINUS THUNBERGII (Japanese Black Pine)</b>			<b>PHOTINIA VILLOSA</b>		
3.50 30.00			Tree to 100 feet tall. Large winter buds silvery-white. A handsome picturesque tree.			Of varying height but normally medium, liberally set with small corymbs of white flowers in June. The foliage is gorgeously red in the fall; and the bird-proof fruit-clusters carry the same scarlet gleam half through winter.		
<b>PICEA EXCELSA (Norway Spruce)</b>			1 yr. -----			1 yr. 6-8 in. -----		
For many years Norway Spruce has been highly appreciated because of its rapid growth, its thriftiness, and its heavy masses of deep green foliage. Some of the finest old hedges are of Norway Spruce, as the trees can readily be pruned to any desired height. On farms and around homes all over the country Norway Spruce wind-breaks are giving substantial protection to stock and buildings. Norway Spruce is a tall, picturesque, and hardy tree, graceful in all its lines, and well adapted to planting over a wide range of territory.			3.00 25.00			6.00 50.00		
4 yr. twice trans. 8-12 in. -----			<b>THUJA OCCIDENTALIS (American Arbor-Vitae)</b>			<b>SYRINGA VULGARIS (Common Lilac)</b>		
12.00 110.00			The American Arbor-vitae is the mother tree from which upward of fifty distinct types have been developed. The native forests of Arbor-vitae have long been of great commercial value for timber, producing tall, straight trunks much used for telegraph poles. The Arbor-vitae is very hardy and dependable in almost any situation. Stands trimming well, and for this reason is widely used for hedge purposes. It usually grows bushy at the bottom and tapering toward the top. Foliage is very soft and flexible and of fine deep green color.			A standard, old fashioned garden variety; flowers bluish purple.		
2 yr. 2-4 in. -----			1 yr. -----			2 yr. trans. beds 8-10 in. -----		
1.50 12.00			<b>THUJA ORIENTALIS (Oriental Arbor-Vitae)</b>			12.00 100.00		
1 yr. 1 in. -----			A comparatively low, broadly pyramidal tree, native of Asia. Its color is a refreshing yellowish green similar to Hovey's, although dulling to bronzy green in winter. Very rapid grower.			6.00 50.00		
1.25 10.00			3 yr. trans. 12-15 in. -----			1 yr. -----		
<b>PICEA PUNGENS (Colorado Spruce)</b>			15.00 125.00			3.00 25.00		
Tree 80 to 100 feet or more. Handsome tree of symmetrical habit with light colored foliage. Very popular as a lawn tree and for dry climates. One of the best of all Spruces.			3 yr. trans. 8-10 in. -----			<b>SYRINGA VULGARIS ALBA</b>		
2 yr. 2-4 in. -----			12.00 100.00			The old fashioned White Lilac, blooming in early spring; very fragrant.		
4.50 35.00			2 yr. trans. 8-10 in. -----			2 yr. 4-6 in. -----		
1 yr. 1 in. -----			8.00 70.00			5.00 45.00		
<b>PICEA PUNGENS GLAUCA</b>			2 yr. trans. 6-8 in. -----			<b>TAXODIUM DISTICHUM (Common Bald-Cypress)</b>		
A selected blue shade.			7.00 60.00			A tall pyramidal tree; grown for their graceful feathery foliage which is light green in color.		
2 yr. 2-4 in. -----			5.00 40.00			2 yr. 18-24 in. -----		
5.50 45.00			2 yr. beds 6-8 in. -----			10.00 90.00		
<b>Pinus, The Pines</b>			1 yr. 4-6 in. -----			1 yr. 6-8 in. -----		
<b>PINUS AUSTRIACA (Austrian Pine)</b>			3.00 20.00			8.50 75.00		
Has rich, glossy, dark green foliage. Well adapted for planting in cities, as it is highly resistant to smoke. A fast growing dense tree of wonderful adaptability.			<b>THUJA ORIENTALIS AUREA (Golden Oriental)</b>			<b>VINES</b>		
2 yr. 4-6 in. -----			Chinese Arbor-vitae grows much more rapid than other varieties here listed and may be easily bedded out at one year. The varieties listed are produced from seed and due to revision to type I cannot guarantee any stated percent to be true Compacta, Aurea, Globosa or Nana in these seedlings.			<b>HEDERA HELIX</b>		
4.50 35.00			1 yr. 4-6 in. -----			The well-known Ivy of the South; glossy green leaves; rapid growing canes which will cling to walls or trail along the ground, making a dense cover, succeeding in either sun or shade and in most soils.		
<b>PINUS DENSIFLORA (Japanese Red Pine)</b>			4.50 35.00			2 yr. beds rooted cuttings (small leaf) -----		
Tree to 100 feet tall, in cultivation much less. Handsome ornamental Japanese Pine of rapid growth when young, very picturesque when older.			<b>THUJA ORIENTALIS COMPACTA</b>			4.00 85.00		
1 yr. -----			A compact, dwarf conifer with green foliage. Excellent for lawns and for urns. Neat and attractive.			2 yr. 2 1/2 in. pots -----		
1.25 10.00			2 yr. trans. 6-8 in. -----			16.00 150.00		
<b>PINUS EDULIS (Nut Pine)</b>			4.50 35.00			<b>VINCA MINOR (Periwinkle)</b>		
Small tree 10 to 20 feet in height with horizontal branches. Very bushy. Foliage dark green. Hardy north as far as Massachusetts.			1 yr. 1 in. -----			1 yr., strong plants -----		
5.00 40.00			<b>PINUS FLEXILIS (Limber Pine)</b>			4.00 35.00		
Tree to 50 feet or over. A hardy, unusually low Pine with spreading branches densely clothed with dark green leaves. Adapted for planting on rocky slopes.			2 yr. 2-4 in. -----			<b>YUCCA</b>		
4.50 35.00			1 yr. -----			<b>YUCCA FILAMENTOSA (Common Yucca)</b>		
3.50 25.00			<b>TSUGA CANADENSIS (Canada Hemlock)</b>			A conspicuous plant with stiff evergreen foliage. The large clusters of creamy white flowers produced in summer make a fine effect; excellent for massing.		
			One of our handsomest ornamental trees for lawns or for hedges. Stands severe clipping.			3 yr. beds (heavy) -----		
			1 yr. -----			6.00 50.00		
			<b>TSUGA DIVERSIFOLIA (Japanese Hemlock)</b>			1 yr. 6-8 in. -----		
			2 yr. 2-4 in. -----			3.50 25.00		
			6.00 50.00			<b>REGALE LILY</b>		
						<b>LILIUM REGALS (Regal Lily)</b>		
						"One of the most beautiful of all known lilies. The exquisite blending of tints and colors forming a charming contrast with the rich, deep green foliage. Highly recommended for general culture, both for pot and the open ground. Strong growing and permanent as far north as Boston." (Bailey).		
						"L. Regale came to us from China. With its large flowers, white overlaid with pink and with a yellow throat, it is one of the most stately of all. Treated like L. Speciosum rubrum of L. Aurum, it appears to be as hardy as either and a most welcome addition to what we already have. It can be grown and flowered in pots."		
						2 yr. bulbs from beds (size of acorn) -----		
						16.00 150.00
